Education

San Francisco State University
- Bachelor of Science in Computer Science (Class of 2026)

Projects

Portfolio Website | *HTML, CSS*
- Developed and designed a personal resume website using HTML and CSS to showcase professional skills, experience, and achievements.
- Implemented live server functionality to enhance the user experience, allowing real-time updates and dynamic content without the need for manual page refresh.
- Optimizing the website for various devices and screen sizes for accessibility
- Incorporated interactive elements and multimedia content to engage visitors, providing a comprehensive overview of qualifications and fostering a positive impression.

Sudoku Solver | *Python, Tkinter*
- Created a Python-based Sudoku solver with a Tkinter GUI
- Programmed a solver with backtracking algorithms
- Enabled custom puzzle input and visualization of solutions.
- Capable of solving puzzles of varying complexity.
